

pmdtechnologies ag Opens Offices in Seoul and Shanghai

Deepens its presence in Asia with expansion into China and South Korea

SIEGEN, Germany, Jan. 04, 2019 – pmdtechnologies ag is constantly growing with their customers around the world, and to better understand and respond faster to customer needs they have expanded their presence in Asia. The company announced today new subsidiaries opening in Shanghai, China and Seoul, South Korea.

“The opening of these two offices is an important part of our global strategy to meet the evolving needs of our customers as well as representing pmd’s strong commitment to China and South Korea,” said Dr. Bernd Buxbaum, CEO of pmdtechnologies ag. “With these new offices, we can now be even closer to our Asian customers,” he added.

“pmdtechnologies ag is responding to the growing needs of close customer support,” said Adam White, Sr VP PMM Sales, Marketing & Distribution and Division Board Member, Infineon Technologies AG. “Thanks to the enhanced coverage, fast and efficient collaboration with our 3D-sensing customers will be strengthened. This is essential for development, testing and optimization during ramp-ups for mass production,” he added.

Complete and fully equipped teams in both the South Korea and China offices will support local hardware, and software development, integration, bring-up and speed up mass production enablement.

pmdtechnologies ag has over 400 person-years of depth-sensing experience and five offices around the world including a new Headquarters with clean rooms and laboratories, opening in early 2019. These new offices strengthen existing customer partnerships and further forge a strong strategic connection to their local customer base.
