

We are **pmd**, the world's leading supplier of 3D image sensor technologies based on the Time-of-Flight principle. Our customers from the consumer, automotive, industrial automation, robotics and medical technology industries trust our reliable reference designs and powerful image sensors for 3D distance measurements. Our technology is integrated into smartphones, VR/AR headsets, robots and smart home devices.

More than 250 worldwide patents in this field, numerous awards and agile, dynamic product teams characterize our strong and innovative focus. We belong to the internationally operating ifm group with more than 6.000 employees.

For our new branch in Seoul we are looking for a

Software Engineer – Integration Support

in Seoul, Korea

Your tasks:

You are a local representative of the Field Software Engineering (FSE) team of pmd's Software Group. Your task is to support on-site customers, who wish to integrate pmd's depth camera software into their products.

You are co-working with a strong back office software support team at pmd's headquarter in Germany and various headquarter-based engineers, who will temporarily work on-site with you as well.

You are establishing and maintaining the relationship with the customer on the working-level and provide direct technical support while you structure the remote support for the back office software support team.

Your profile:

- Willingness to travel (Asia/Europe/USA)
- Fluent in English
- Excellent C/C++ skills
- Experience with ARM CPUs and development kits
- Deep knowledge of Android systems (AOSP, Camera2, NDK/SDK, etc.)
- Linux Kernel development knowledge a plus
- Experience with time-of-flight cameras a plus
- Proficiency in CMake a plus
- German language a plus

Your advantages:

- Attractive salary with variable components
- Innovative work environment
- Broad spectrum of activities
- Most modern working conditions
- Co-work in a highly motivated team
- Continuous opportunities to evolve and educate yourself

can you imagine? We're looking forward to meet you.
